Projects

SkillBridge – Connecting Talent to Opportunities: [GitHub Link](#)

Built a 3-page job-matching platform that extracts skills from an uploaded resume and matches candidates against roles (Web Developer, Full Stack Developer, etc.) with a calculated match percentage and interview readiness score, alongside a personalized skill-gap roadmap for each role.

Law Firm Website: [Live Demo](#) – [GitHub Link](#)

Built an 8-section responsive law firm website (Home, About, Practice Areas, Our Team, Legal Updates, FAQs, Contact, and Consultation Booking) using HTML, CSS, and JavaScript; deployed live via GitHub Pages.

Certifications & Courses

Java Programming (NPTEL) · Networking & Cybersecurity (Cisco)

AI & Copilot (Microsoft) · Generative AI (AWS)

ML, Data Science & Visualization (Cognitive Class)

Accomplishments

- Achieved **2nd rank** in school in State Board examinations.
- Participated in **Smart India Hackathon (SIH)**, Ideathon, and Debugging competitions, demonstrating problem-solving and teamwork skills.
